The first National Policy on Education (NPE) of India was promulgated in 1968 by the Government of India and then the second was framed in 1986 which was modified in 1992. National Education Policy 2020 (NEP) is approved by the Union Cabinet of India in July 2020 to replace the previous policies on account of changes taking place in the society, economy, polity and technology, the old policy seemed ill suited to cater to the needs of an 'Aspiring India'. This policy aims to address the imbalances and to make sweeping changes in our education system.

The new NEP-2020 will change the face and future of Teacher Education in India as well by introducing Integrated Teacher Education Programme (ITEP). GNCE is trying to bring all stakeholders – academia, experts, social scientists, peace educators, activists, and budding scholars representing leading universities/ institutions/ organizations across the world on one platform to discuss/assess the presence, need, promotion and introduction of NEP and its impact on Teacher Education System in India.
