

GURU NANAK COLLEGE OF EDUCATION

B.Ed.Programme

PERSONALITY DEVELOPMENT ACTIVITIES

NSS

Batch: 2021-23

Semester: III

TITLE: Fogging Day

ORGANIZER: NSS Cell, GNCE

DATE: 22.11.2022

Time: 3:00 pm

VENUE: College Campus

Fogging is a technique used for killing insects that involves using a fine pesticide spray (aerosol) which is directed by a blower. In some cases, a hot vapour may be used to carry the spray and keep it airborne for longer.

On 22.11.2022, the NSS Cell took up the initiative of arranging the fogging machines which were carefully handled by trained professionals to ensure that there was a reduction in the number of mosquitoes and other insects in and around the College Campus with an ultimate objective to avoid a number of deadly diseases including dengue, chikungunia etc.

The Fogging Drive did have a long lasting effect and it was felt that it must be done at least once in every 15 days.
